PUBLIC ADDRESS SYSTEM

AT-PA-WSG40W

Public Address Wall Speaker

DESCRIPTION

AT-PA-WSG40W is a wall-mounted loudspeaker that delivers clear announcements and background music as part of a PA system. It is commonly used in offices, schools, hotels, shops, and other public or commercial spaces to ensure sound is distributed clearly and evenly without taking up floor space.

FEATURES

- IP network mixer amplifier with audio decoder
- Wall-mounted speaker for public address and background music
- Wide frequency response for clear audio

TECHNICAL SPECIFICATION

Power Output	40W
Frequency Response	100-20kHz
