# AT-ACS-NT40

Access Control Exit Button

ATSONTECH®

The AT-ACS-NT40 Button is designed for safely exit by pressing or infrared detection, unlocking the door temporarily. It is typically used in conjunction with other security systems to ensure controlled access while providing as a simple, efficient way to exit.

- **User Friendly Operation-it is simple to install and operate**
- **High Sensitivity-it can respond at fast speed, less than 1 second**
- **LED Backlight-Blue LED on standby and Red LED on approaching**
- **No Touch to exit (infrared detect)**
- **Induction scope: 0.1cm ~ 10cm**
- **Widely application to access control system**
- **Finish: Stainless steel brushed**

System Connection Diagram

Technical Specification

Working Voltage	DC12V
Current Rating	AC120V/3A, DC30V/3A
Output Contact	NO/NC/COM
Service Life	500,000 times
Working temp.	-30C ~ 60C
Working Himidity	10% ~ 90%RH
IP Rating	IP55
Size	86 x 86 x 29 mm
Weight	Approx : 0.2kg
