Working Voltage	DC12-24V
Dimension	106mm x 86mm x 23.2mm

The diagram illustrates the connection of four rooms to a central server management system. Each room (Room 1, Room 2, Room 3, and Room 4) contains a bed extension, an alarm button, and a door light. The connections are made via network cables (POE 16) and power cables (18-24V power adapter). The central server management system is connected to the rooms via a network switch and a power supply unit.
